PROGRAM COVERAGE

Jainism believes that satya, i.e., the reality, is uncreated and eternal. Further it asserts that satya, i.e., the reality, is characterized by: utpada, i.e., origination or appearance, vyaya, i.e., destruction or disappearance, and dhrauvya, i.e., permanence. Jainism categorically states that every object of reality is found possessed of infinite characters, both with respect to what it is and what it is not.

In Jainism, Pudgala is one of the six Dravyas, or aspects of reality that fabricate the world we live in. The six dravyas include the jiva (living creature) and the fivefold divisions of ajiva (non-living) category: dharma (motion), adharma (rest), akasha (space), pudgala (matter) and kala (time).
